#### **DETAILED ACTION**

# Response to Amendment

1. Applicant's reply, filed 17 April 2006, has been received and entered.

Accordingly, claims 2-4, 8-11, 13-15, 19-24, and 27-29 have been amended. Claims 1

and 12 have been cancelled. No new claims have been added. Thus, claims 2-11 and

13-29 are currently pending in this application.

2. Applicant has not amended the drawings or the specification to overcome the

objections stated in the last Office action. The outstanding objections are repeated

below.

3. It is further noted that the foreign reference GB 2052207A, noted on the

Information Disclosure Statement filed 1 June 2004 but not previously submitted, has

been made of record and considered with the present Office action. See the attached

PTO-892.

### **Drawings**

4. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this

application because the drawings and reference numbers are handwritten. Applicant is

advised to employ the services of a competent patent draftsperson outside the Office,

as the U.S. Patent and Trademark Office no longer prepares new drawings. The

Art Unit: 2884

corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

5. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: **15** (page 9, line 5). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### Specification

6. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Art Unit: 2884

7. The disclosure is objected to because of the following informalities: In the abstract, line 4, "block;" should probably be --block--.

Appropriate correction is required.

## Response to Arguments

8. Applicant's amendment of claims 2-4, 8-11, 13-15, 19-24, and 27-29 has successfully overcome the rejection of claims 2-11 and 13-29 under 35 U.S.C. 102 and 103, as detailed in paragraphs 7 and 9-11 of the previous Office action.

## Allowable Subject Matter

- 9. Claims 2-11 and 13-29 are allowed.
- 10. The following is a statement of reasons for the indication of allowable subject matter: Independent claims 2, 13, and 23 are allowable for reasons of record, as presented by applicant in the response filed 17 April 2006, especially page 10, last paragraph, through the middle of page 11.

#### Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Jatteau (UK Patent Application Publication GB-2052207A) was cited by applicant on the IDS filed 1 June 2004 and has been included to make said reference of record.

Art Unit: 2884

12. This application is in condition for allowance except for the following formal

matters:

I. The objections to the drawings, as detailed above in paragraphs 4 and 5.

II. The objections to the specification, as detailed above in paragraph 7.

Prosecution on the merits is closed in accordance with the practice under Ex

parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire TWO

MONTHS from the mailing date of this letter.
